

Weber, an international leader in the manufacture and application of innovative and practical solutions for Building Products, is pleased to outline its comprehensive 2012 Training Programme for these activities.

Product Training Manager Paul Rigby has developed this course programme specifically to address the current needs of the industry.

Comprised of four scheduled courses and a series of further in-depth specialist courses carried out by arrangement, Weber appreciates the importance of training and aims to bridge the skills divide by working closely with applicators.

# Buildings Product Trainings 2012

**Weber** has established, dedicated training facilities at their factory in Flitwick, Bedfordshire to accommodate the running of these courses. Attendees have access to conference/ classroom facilities and purpose designed practical areas in a relaxed, informal atmosphere. Lunch and light refreshments will be provided throughout the duration of the course.

*All courses are 1 day and held at Flitwick*

## Monocouche

Aimed primarily at those using Monocouche materials for the first time, this course explores the fundamental basics of good rendering practice along with the application and finishing techniques associated with these products. A one day course, it includes both theoretical and practical activity. Practical demonstration of machine application techniques are included as part of the course.

## Monocouche Maintenance

This course has, since its development in 2005, proved to be extremely popular with house builders. These recently developed, paint-free repair and maintenance techniques have proved to be acceptable to both clients and developers alike. A short, one day programme provides mainly practical demonstration of the processes involved

## Introduction to EWI

Increasingly popular as the technically superior method of achieving ever more stringent insulation requirements, External Wall Insulation (EWI) has a wide range of possible insulants, systems and finishes. This one day course provides an overview of the complete range of render protected EWI systems along with a guidance regarding the basic principles involved. Further weber.therm, system-specific courses are available by arrangement.

Courses	Dates	Cost
<b>Monocouche</b>	12.01.12	£150.00
	02.02.12	£150.00
	01.03.12	£150.00
	19.04.12	£150.00
	31.05.12	£150.00
	14.06.12	£150.00
	05.07.12	£150.00
	30.08.12	£150.00
	20.09.12	£150.00
	11.10.12	£150.00
	22.11.12	£150.00
	06.12.12	£150.00

## weber.therm XP M1 System

weber.therm XP M1 is a detailed one day course covering the particular application and finishing processes of the system this course explores the fundamental basics of good rendering and external wall insulation practice. The practical part of the course utilises machine application techniques for the render application which is revolutionary within the EWI business.

## Other weber.therm Systems

Detailed one day courses covering the particular application and finishing processes for specific weber.therm systems can be arranged at convenient times for the following systems; weber.therm XP, weber.therm XL, weber.therm XM, weber.therm XB & Rail Supported.

Courses	Dates	Cost
<b>External Wall Insulation</b>	19.01.12	£150.00
	26.01.12	£150.00
	09.02.12	£150.00
	23.02.12	£150.00
	08.03.12	£150.00
	29.03.12	£150.00
	26.04.12	£150.00
	10.05.12	£150.00
	24.05.12	£150.00
	21.06.12	£150.00
	28.06.12	£150.00
	12.07.12	£150.00
	26.07.12	£150.00
	23.08.12	£150.00
	13.09.12	£150.00
	27.09.12	£150.00
	04.10.12	£150.00
	18.10.12	£150.00
08.11.12	£150.00	
15.11.12	£150.00	
29.11.12	£150.00	
<b>weber.therm.XP M1</b>	21.02.12	£150.00
	03.05.12	£150.00
	19.07.12	£150.00
	06.09.12	£150.00
	25.10.12	£150.00
<b>weber.therm.XM, XL, XP L1, XB, RB &amp; Rail</b>	On Request	£150.00

**Weber** has established, dedicated training facilities at their factory in Flitwick, Bedfordshire to accommodate the running of these courses. Attendees have access to conference/ classroom facilities and purpose designed practical areas in a relaxed, informal atmosphere. Lunch and light refreshments will be provided throughout the duration of the course.

*All courses are 1 day and held at Flitwick*

## Concrete Repair

This popular one day programme explains and demonstrates the important processes and relevant preparation procedures required to complete reliable structural and non-structural repairs in concrete. A combination of theory and 'hands-on' practical work, this course supports the BBA approved weber.cem concrete repair system. It is suited to applicators, supervisors and engineers alike. In fact anybody who has an interest in repairs to concrete being carried out successfully will benefit from attendance.

## Construction Mortars

Construction mortars is a course suited for Weber stockists and distributors. The course covers briefly concrete repair products and then concentrates on grouting, anchoring, pavement repair and bedding mortars. It is an intense day course but covers all the issues for anyone wishing to sell construction chemicals. Courses are arranged by request.

## Composite Strengthening

Between them glass, aramid and carbon fibre fabric wrap, along with carbon fibre plate have been developed into a very cost-effective and flexible range of structural strengthening options for the construction industry. Whether they are used in Civil Engineering or during the change of use of Buildings, getting things wrong can have serious consequences. Courses are arranged by request.

Courses	Dates	Cost
<b>Self Smoothing Floor Screeds</b>	07.02.12	£150.00
	17.04.12	£150.00
	10.07.12	£150.00
	13.11.12	£150.00
<b>Concrete Repair</b>	31.01.12	£150.00
	15.05.12	£150.00
	11.09.12	£150.00
	04.12.12	£150.00
<b>Construction Mortars</b> Aimed primarily at Distributors	28.02.12	£150.00
	29.05.12	£150.00
	25.09.12	£150.00
	27.11.12	£150.00

### How to book

All courses are undertaken by our Product Training Manager Paul Rigby. To book places on any of the scheduled courses or enquire regarding the specialist courses, see the 'how to book below'. Alternatively, contact Paul on 01525 718877.

Book online at [www.netweber.co.uk](http://www.netweber.co.uk)

Follow the simple on screen instructions to register on our website.

Once registered the training courses are located under the services tab on the top drop down menu bar. Find the relevant course and enter the number of attendees required, scroll to the bottom of the page and click on submit.

A summary page will show the courses that you have chosen and also your personal details – check all the details are correct and click submit. We will contact you when we receive your order to confirm details and dates of the courses.

Book by phone on +44 (0)1525 718877

We can provide information on nearby accommodation if required. Just ask when you are making your booking.

If you need to cancel a course you have booked please give us 48 hours notice.
